[GY-HM700CHE](#) HD Camcorder Head w/o lens

Introducing the GY-HM700E, the world's first professional camcorder that natively records Apple's QuickTime (MOV) file format for Final Cut Pro. Files can be read directly into Apple's popular editing system, and for compatibility with other NLE systems, the GY-HM700E also supports the MP4 fileformat.

Recording to twin SDHC memory cards, the GY-HM700E represents a new generation of camcorders that make continuous HD shooting and seamless software integration a reality.
