

New Blu-ray and HDD recorders from JVC

Ideal for use in education and event videography, the professional [SR-HD1250](#) and [SR-HD1500](#) Blu-ray and HDD combo deck recorders offer a simple, cost effective way of sharing and archiving your HD content.

The recorders support both Blu-ray Disc (HD) and DVD (SD) and feature a front panel SDHC card slot for direct support of files recorded via the GY-HM series of camcorders. The recorders work seamlessly with any AVC HD camcorder too, including those made by Sony, Panasonic and other manufacturers.

Users can make recordings of camcorder content onto Blu-ray Disc or DVD via a quick and simple process, facilitating prompt delivery to clients. The internal HDD also enables easy editing and dubbing of multiple discs.
