

About JVC

JVC Professional Europe, is a wholly owned subsidiary of **Victor Company of Japan**, one of the world's leading manufacturers and suppliers of a wide range of sophisticated and high quality video and data products, which are aimed at professional users.

The product line-up falls into two main categories, (a) [Security](#), including [CCTV](#) and [networks](#) and (b) [Video Content Creation](#) including both high definition and standard definition recording and playback equipment.

Image display whether by [LCD](#), [CRT](#) or [D-ILA](#) projection forms a large part of JVC's product line-ups for both Security and Content Creation.

JVC Professional Europe has territorial responsibility for supplying professional products & systems and product support & service within the European Community and the majority of countries within the rest of Europe, the Middle East and Africa.
