

To whom it may concern

30th June 2006

EU RoHS Declaration of Conformity

As regards the European Community's legal requirements in respect of the restriction of the use of certain hazardous substances in electrical and electronic equipment

JVC Professional Europe Limited, (hereafter referred to as JPE), hereby confirms that from 1st July 2006 all JVC branded products brought into the European Community by JPE for use within the EC have been manufactured in compliance with EU Directive 2002 / 95 / EC, inasmuch as these products contain lead, mercury, hexavalent chromium, PBB and PBDE at concentrations <0.1% by weight and cadmium at concentrations <0.01% by weight in all homogenous materials except where exempt from Directive 2002 / 95 / EC (RoHS) and its amendments.

JPE will provide individual JVC Declarations of Conformity for individual JVC products when called upon to do so.

In respect of the third party products which are not RoHS exempt and which JPE regularly distributes within the EC, JPE undertakes to supply a copy of the manufacturer's Declaration of RoHS Conformity upon request. In respect of other third party products which JPE may occasionally distribute, JPE undertakes to request a copy of the manufacturer's Declaration of RoHS Conformity and so make it available when called upon to do so.

For and on behalf of JVC Professional Europe Limited

A handwritten signature in black ink, appearing to read 'K. Yoshikawa', is positioned above the printed name and title.
